

# FELLOWSHIP OF AMERICAN BIBLIOPHILIC SOCIETIES

Volume 2, Number 1, *Spring* 1998

## *From the Chairman*

**T**HERE are over 3300 individuals associated with FABS through membership in seventeen bibliophilic clubs located across the country. Each of these clubs is different in its own way, but each is similar in its various concern, appreciation, and celebration of the book in its various manifestations and capacities to please the mind of man.

This mutual interest links all of us in an informal organization. We share our programs, publications, and activities. We join together at bookfairs and in visits to each other's cities and to find pleasure in a bookish and stimulating atmosphere.

The first half of 1998 offers two events, one in New York City and the other in Philadelphia and Delaware. Both are more fully described in this issue of our newsletter. We also anticipate a gathering in San Francisco early next year. I hope many of you plan to participate and enjoy the camaraderie and pleasure of these occasions.

Finally, we are happy to announce that this newsletter is now edited and produced by Scott Vile, Baxter Society member, and the Ascensius Press. His effort and time are appreciated.
